Academic Freedom

No License for
Communist Teaching

What we wrote in this column a month ago about using academic freedom as a cloak to hide traitors in the universities and colleges who are using their teaching posts to break down American tradition and economy seems to be the way some eminent educators feel about it, too.

This morning 20 top university men, including President Eisenhower of Columbia university and President Conant of Harvard issued a statement which said Communists should be barred from the teaching profession.

At the same time they stipulated that the theory of Communism ought to continue to be explained to students in regular school courses, just as other economic and political theories are explained to the growing young mind.

But they said — these educational leaders — that there is a difference between explaining and advocating it.

And that is the essence of the whole matter. A card-carrying Communist has no business in the teaching profession because he is committed on oath to advocate — not explain — the foreign philosophy which he believes in, as opposed to the tradition of his own country.

The schools, like all cultural pursuits, would be the first to go down as free and independent institutions should the American system of government give way to a Communist regime. Academic freedom doesn't mean anything if it is twisted around to mean that it has got to shield the very reactionaries who would ultimately destroy it.

And America's greatest educators have spoken out boldly and sharply.

Suggests Korea Set Up Own Rule

Washington, June 8 — (P) — Foreign Aid Administrator Paul G. Hoffman today proposed a three-year "Little Marshall Plan" for the infant republic of Korea to make that nation a road-block to communism in the Far East.

In testimony before the house foreign affairs committee on President Truman's request for \$150,000,000 in Korean recovery aid for the year starting July 1, Hoffman said "it simply makes no sense to adopt a relief program."

Mr. Truman's request is only slightly more costly than relief, Hoffman declared, but stressed that it can set Korea on the road to self-sufficiency.

If extended for three years, Hoffman said, the plan drafted by his economic cooperation administration can make the American-occupied area in South Korea largely independent, economically, from the Russian-held portion in the north.

The basic objective of United States policy toward Korea is to establish, as soon as possible, a united, self-governing and sovereign Korea, independent of foreign control and eligible for membership in the United Nations, he went on.

"Union between the north and south of the country can be achieved on satisfactory terms only if the government and economy of Southern Korea become so clearly vigorous and sound as to convince the people of North Korea that their best interests lie in union."

ECA chief derided the Korean republic as "a key outpost of democracy in the Far East" and declared his belief that the ECA program "is the only economic answer to the republic's programs."

Around \$110,000,000 of the \$150,000,000 asked for Korea would be used for fertilizer, food and industrial raw materials.

Some \$32,000,000 would be devoted to boosting coal, power and fertilizer production.

"This roughly only one-fifth of the program, but it is the key 20 per cent," Hoffman said.

Under the three-year plan he said, aid would be furnished on a progressively diminishing scale.

Undersecretary of State James E. Webb told the committee that American troops now withdrawing from Korea have left behind "substantial quantities" of equipment for the republic's military forces.

He also said that the United States will retain a "substantial" military advisory group there to help the Korean forces resist communist pressures.

But, Webb declared, both economic and military aid are urgently needed to keep South Korea on its feet.

Without outside help, both for relief and recovery, "the Korean economy will suffer a rapid and inevitable collapse," Webb said.

"Under such circumstances, only the Communists would win," he added.

Lawmakers speculated that Mr. Truman's request for Korea amounts to about the best answer we can find right now for the related China-communism problem.

Makers of early American hand-made glassware dropped a "hot potato" in to pots of molten glass to get rid of bubbles. The potato caused the glass to form extra large bubbles which rose and escaped into the air, carrying the smaller bubbles with them.

'Nothing New' Is Report on Missing Plane

Movie Stars to Auction Off Old Items

Beverly Hills, Calif., June 7 (AP)—Want to buy Anne Baxter's old harp chair? Van Johnson's six hand-painted beer mugs? Or the engraved silver box on a neck-chair, in which Joan Leslie's grandmother carried her "mad money?"

These and hundreds of other items will be auctioned June 13-16 in Hollywood's most glamorous white-elephant sale in years. Loretta Young drummed up the auction for the benefit of St. Anne's Maternity Hospital for Unmarried Mothers.

Some of the items have the antique look of family heirlooms, like Ray Milland's six Brazilian silver coffee spoons. Irene Dunne is represented by an old silver teabox and demitasse cups. Also by cufflinks which, she cheerfully admitted, she swiped from her husband.

Other donations range from harps to television sets and costly gowns. Auctioneer Roy J. Goldenberg thinks the whole display, previewed yesterday, is worth \$50,000.

Hedy Lamarr contributed a brass candlestick, William Powell a pair of liquor decanters in a leather case. Mary Astor's grandmother's oil lamp is there, converted into an electric lamp.

Miss Young's own offerings include her black enameled cigarette case, set with about 100 tiny diamonds. It holds only six diamonds. It holds only six diamonds.

She's had it about 10 years, and didn't remember who gave it to her.

Young Confesses Killing Father After Argument

Paragould, June 8 (AP)—An 18-year-old youth today was accused of fatally shooting his father following a quarrel over use of a farm tractor.

Sheriff Loy Newberry said David Monroe Scott admitted the killing. No charge has been filed.

The victim, W. B. Scott, 50-year-old farmer, was shot twice by a .22 caliber rifle in a field near his home, five miles northwest of here. The incident occurred about 7:30 a.m. He died enroute to hospital.

Sheriff Newberry gave this account of the shooting:

The boy and his father argued over the tractor last night. The boy carried the rifle to the field this morning and shot the elderly man off the tractor. David shot his father again as the latter lay on the ground.

Why the emphatic language? What gives this treaty such vast importance?

The value of this historic pact lies in the fact that it is a declaration of determination by the twelve signatories. It is an announcement that they stand together as a unit, one for all and all for one.

The amount of military power which they can muster to back the treaty doesn't matter so much as that they represent great military power.

Russia, of course, isn't mentioned by name even once in the pact, which is jammed with very specific diplomatic language.

But it's aimed solely at Russia and it's a sharp illustration of how this country has changed its mind in only a few years.

A pact like this was impossible in 1939, when Hitler was getting ready to let war loose and gobble up the terrified Western European democracies one by one.

This country was confused then, and split down the middle between a desire to stand shoulder to shoulder with Western Europe and to stay withdrawn in our ancient isolation.

Yet, if there had been such a pact in 1939 Hitler might have been afraid to start his war. So the war taught us that our isolation had been a booby trap.

The proof that we had learned come just before the war ended when we joined in organizing the United Nations. That was a sensational step for us, all by itself.

But it broke the ice for us, in making the decision that henceforth we'd have to be up to our necks in world affairs.

When the world's friendliness with Russia changed to cold hostility, we took the next logical step, the Atlantic pact, taken for granted, too.

So perhaps better than anything you can point to, the American attitude about the Atlantic pact is a sign of the times.

There was no excitement when all 13 members of the senate's foreign relations committee this week approved our joining the pact.

Everyone knew the committee would bless the pact even before it began 16 days of hearings on April 27.

The hearings were hardly more than a formality, an open forum for anyone who wanted to speak his piece for or against the pact.

The committee's final decision was never in doubt. Now it goes to the full senate for debate, because the pact is a treaty, two-thirds of the senators must vote for it before we actually join.

But the outcome there isn't in doubt, either, at this writing. And within a month or so we can be

Help Europe, Keep Peace Says Hoffman

St. Louis, June 7—(AP)—Paul G. Hoffman said today the best way to stave off a third world war is to "maintain the momentum of recovery in Europe."

The man who administers the Marshall plan as head of the AEC delivered the commencement address at Washington university yesterday.

He said America again is facing a threat that carries with it the possibility of war.

"I refer, of course, to the power

of the Kremlin for world conquest," he added.

Hoffman said Russia is offering the world "a philosophy of power in its most wicked form; a way of life that enslaves bodies, withers training."

He continued: "x x x the ambitions of the men of Moscow go far beyond Russia. Their primary objective, their one great dream, is to establish a world dictatorship by promoting satellite police states

Negro Baseball Team Plays Here Sunday

Hope Regulars, Negro baseball team, will play Magnolia here Sunday, June 12, at the Negro City park.

The Hope team has dropped only two of 9 games so far this season and will be gunning for another victory Sunday. The public is invited.

New York, June 7.—The executive pension racket now gives thousands of fat cats of free enterprise a hen on the pettiest individual capital of millions of stockholders. It is no exaggeration to speak of this racket as a greedy outrage put over in the dark of the moon, for no individual small investor can protect himself. In buying his few shares of stock with his savings he almost certainly will lack the savvy to learn whether he is buying an obligation to pay a pension of from \$25,000 to \$80,000 a year to himself, his wife, his son and his widow after they shall have expired. In lean years when there are no profits for the stockholders, the pensioners on such de luxe social security continue to draw their checks. In that case, they are paid either wholly or in part out of the assets of the company, meaning the capital of the stockholders.

Under the so-called group insurance system with its various "plans" all couched in a hocus-pocus absolutely baffling to the normal intelligence—and I do not mean the subnormal intelligence, either—the drain on the assets may be mitigated, but the company will be still for a portion of the assets, just the same.

When the investor by luck does buy in a company which has already earmarked and committed a large portion of its future earnings and, in the absence of earnings, its capital, he may yet be stuck for pension payments just the same.

Jury Fails to Agree on Verdict in Hunt Slaying

Little Rock, June 8 — (AP) — A Pulaski county Circuit court jury was deadlocked on the question of whether Wilson E. Hunt, for the fatal shooting of his estranged wife, was discharged at 3:05 a. m.

today after reporting it was hopelessly deadlocked.

The jury began deliberating at 1:04 a. m.

Hunt, a 40-year-old unemployed railway mail clerk was accused of killing his wife, Mrs. Mildred Hunt, 38, and her male companion, Edward Wilson E. Hunt, for the fatal shooting of his estranged wife, was discharged at 3:05 a. m.

for the shooting of his wife. Prosecutor Edwin Dunaway made no decision immediately on future action in the case.

While on the witness stand late last night, Hunt testified he shot the two in Fugate's automobile in self defense. He said he fired several .45 caliber pistol slugs into the car after Fugate attempted to run him down with the auto.

Kelly-Hooks Wedding Solemnized

Lovely in its simplicity was the marriage of Miss Vivian Jean Hooks, daughter of Mr. and Mrs. Johnnie H. Hooks of Prescott and Orville Kelly which was solemnized at 11 a. m. Friday in First Methodist church, Hot Springs. The bridegroom is the son of Mr. and Mrs. Welch Kelly of Nashville.

The Rev. Ray C. Hozendorf officiated.

The bride was radiantly lovely in a white linen frock with matching accessories. Her illusion veil was caught to a hat of white roses and pinned to her shoulder with an orchid. She carried a white Bible topped with an orchid that belonged to her maternal grandmother.

Miss Ethel McRae Bemis, of Prescott, maid of honor, wore a pink linen dress with brown accessories and a corsage of pink gladiolus.

Bernard Johnson of Hot Springs served as best man. The couple is at home in Arkansas.

Miss Peggy Ann McClelland of Prescott attended the wedding.

National recognition has been given to the new Prescott Chamber of Commerce "Membership Manual" which was presented to the membership at the meeting held in March.

Marcus Justiss, president of the Chamber of Commerce, said today that Ben Lawshe, Managing director of the Commercial Organization Department, of the Chamber of Commerce of the United States, mentioned the "Membership Manual" in his May News Letter, which is received by over a thousand Chamber of Commerce Executives.

The past month has shown considerable improvements on the exterior of the building and grounds at the Presbyterian church. A fine yard fence costing \$40 has been installed on the back lawn of the grounds, supervised by Ed Berger.

New guttering and repairs have been made on the roof. New walks have been laid on the front of the building by Carl White. A retaining wall has been built on the east side of the property and filled in with dirt. New shrubbery will be added in the fall. Jesse Crow, chairman of the deacons has been the chairman of the improvements, with the assistance of the men of the church.

Mrs. James Williams Hostess to Bridge Party

Mrs. James Williams entertained with an afternoon bridge party on Thursday afternoon in the home of Mrs. Hubert Barksdale.

The party rooms were decorated with a variety of summer flowers.

Mrs. Charles Willis won the high score prize.

Delicious refreshments were served by the hostess to guests: Miss Marthia Ann Tippett, Mrs. Allen Gee, Jr., Mrs. Dutchie Bright, Mrs. Ralph Haynie, Mrs. J. Leland Lavender, Mrs. Willis and Mrs. Burksdale.
